Stephanie,

- By the way, my wife and I have paid 2 trips to "Ann's House of Nuts" (each summer) over the past 2 years and have gotten some great deals.
  - We put most in the freezer and thawed the packages out as needed.
- Thanks for introducing this outlet to our family. It has been both financially and nutritionally invaluable!

Dan,

Thanks for your help. I checked around up here and we don't have to have the info to write out Endangered Species Assessment. We might need it when we go into consultation with the Services, but that's a little ways down the road (meaning, years from now).

Thanks again.

Steph

 Dan Peacock---02/08/2012 06:41:55 AM---Stephanie, So, BEAD says that they do not have any usage data on Difenacoum. Personally, I know

Stephanie,

So, BEAD says that they do not have any usage data on Difenacoum.

Personally, I know of no reason why you could not ask the company to submit the California usage data voluntarily on their own products. You could ask your management.

Dan

Stephanie,

BEAD has not found any usage data on difenacoum. I'll let you know if we find anything.

Subject: Fw: question about difenacoum

---

Dan,

We are working on the San Francisco Bay Lawsuit for endangered and threatened species, and we were wondering if you or someone in your Branch knows of any usage of difenacoum products in California. Would we have to (or even could we) contact the registrant for any sales estimates for difenacoum products?

Monisha,

Were there any CALPUR data for this chemical? Is there someone at CalEPA (sp?) who might know of usage in California?

Thanks so much.

Steph
